

## SKOLESTEG, Family Letter

Dear Family,

We want your child to be as successful as possible at school. Success in school is not just about reading and math. It is also about knowing how to learn and how to get along with others. We will be using the Skolesteg - *Second Step* program in your child's classroom to teach these critical skills.

The *Skolesteg* program teaches skills in the following four areas:

1. **Skills for Learning:** Students gain skills to help themselves learn, including how to focus their attention, listen carefully, use self-talk to stay on task, and be assertive when asking for help with schoolwork.
2. **Empathy:** Students learn to identify and understand their own and others' feelings. Students also learn how to take another's perspective and how to show compassion.
3. **Emotion Management:** Students learn specific skills for calming down when experiencing strong feelings, such as anxiety or anger.
4. **Problem Solving:** Students learn a process for solving problems with others in a positive way.

Your child will be learning a lot this year—and he or she will need your help! Throughout the year, your child will be bringing home Home Links - Foreldrelenker that go with several of the *Skolesteg* lessons. Foreldrelenker are simple, fun activities for you and your child to complete together. They are a great way for you to understand what your child is learning and for your child to show you what he or she knows.

If you have any questions about the *Skolesteg* program, please do not hesitate to contact me for more information. Thank you for supporting your child in learning the skills that lead to success in school and in life.

Sincerely,
